

**City Council Special Meeting
Tuesday, March 22, 2016 6:00 p.m.
Civic Center 105 N. 31st Street**

Mayor Tom Bailey

**Councilwoman Mary Blackburn
Councilwoman Linda Albrecht**

**Councilwoman Tanya Castro
Councilman Jeff Tendler**

1. Change Order No. 2 Canal- Preble Rish
2. Duke Energy Banner Agreement- City Administrator
3. Long Reach Dredge Rental- City Clerk

*You are hereby notified that in accordance with Florida Statutes, you have a right to appeal any decision made by the Council with respect to any matter considered. You may need to insure that a verbatim record of the proceedings is made which may need to include evidence and testimony upon which the appeal is based. Any person requiring a special accommodation at this meeting because of a disability or physical impairment should contact Adrian Welle, City Clerk, at 114 North 22nd Street, Mexico Beach, Florida 32456; or by phone at (850) 648-5700 at least five calendar days prior to the meeting. If you are hearing or speech impaired, and you possess TDD equipment, you may contact the City Clerk using the Florida Dual Party Relay System, which can be reached at 1-800-955-8770 (TDD).

City of Mexico Beach Canal Improvements

Additive Alternate 1 Includes:

1. Construction of approximately (actual height varies) 18" tall x 8" wide gravity wall along the entire length of project at the edge of sidewalk.
2. Backfill and additional grading to allow parking along length of project
3. Guardrail for parking
4. Wheel stops for parking
5. Asphalt, base, and striping for parking along length of project
6. 4 channel markers at entrance to canal at coast guard permitted locations
7. 2 Fish cleaning stations with grinders

Per the Awarded Bid the cost is as follows:

Items 1 through 5 Lump Sum = \$201,630.00

Item 6 Lump Sum = \$77,390.00*

Item 7 Lump Sum = \$166,280.00*

Subtotal Additive Alternate 1 = \$445,300.00

*Note: The City has been funded an additional \$30,000 of Coastal Partnership Initiatives funding which can be used toward Items 6 and 7 (channel markers and fish cleaning stations).

Change Order

No. 2a

Date of Issuance: March 22, 2016

Effective Date: March 22, 2016

Project: City Canal Improvements	Owner: City of Mexico Beach	Owner's Contract No.:
Contract:	Date of Contract: January 5, 2016	
Contractor: HG Harders & Son, Inc.	Engineer's Project No.: 035.128	

The Contract Documents are modified as follows upon execution of this Change Order:

Description:

Change of Scope to include a portion of Additive Alternate 1 including **gravity wall, additional grading and backfill, wheel stops, and guardrail** along the **first construction segment** of new seawall which runs north south from Hwy 98. This Change Order would not include asphalt, base rock, or striping.

ITEM TO BE CONSIDERED

Subject: Banner Agreement with Duke Energy

Attachment(s): Agreement

Brief Summary:

The Mexico Beach CDC has requested permission to place banners on some of the light poles on Highway 98.

Action Requested:

Before placing banners on the poles, Duke Energy requires an agreement to be approved and signed.

ISSUE OVERVIEW

Background Information & Issue Summary:

The attached agreement is required to be approved and signed before placing banners on any poles. The proper procedure is to approve the agreement, then fill out and submit Exhibit A, pole location, for Duke to approve.

Financial Impacts:

Cost of banners, lift rental and staff time for hanging banners.

Staff Recommendations/Comments:

Approve the agreement.

GOVERNMENTAL ATTACHMENT AGREEMENT

This Agreement entered into, between **Duke Energy Florida, LLC. d/b/a Duke Energy**, a Florida corporation, herein referred to as "Licensor", and City of Mexico Beach, herein referred to as "Licensee".

WITNESSETH:

That in consideration of the sum of one dollar (\$1.00), receipt of which is hereby acknowledged, Licensor hereby grants unto Licensee the right, privilege and license to install and maintain attachments upon those poles of Licensor, and for those governmental purposes as set forth on the *Exhibit A - Attachment Request(s)*, attached hereto and made a part hereof; where such attachment will not interfere with the safe and economic operation of Licensor's facilities, or other facilities previously permitted to be attached to Licensor's poles; subject, however, to the following terms, covenants and conditions.

1. Licensee warrants that:

- a. all attachments hereunder shall be installed and at all times utilized and maintained in accordance with the National Electrical Safety Code in its present form or as subsequently revised, amended, or superseded, with applicable state laws and local ordinances, and shall at all times comply with generally accepted safety practices of the electric utility industry. It is further understood and agreed that Licensee shall be fully responsible for the installation, utilization and maintenance of said attachments, and that the installation, construction and maintenance of said attachments shall be at the sole risk, cost and expense of Licensee.
- b. all attachments hereunder shall be installed at the lowest height consistent with Duke Energy/NESC requirements and provide a minimum clearance of forty (40) inches below Licensor's neutral wire or secondary conductor. Conductors owned and maintained by Licensee shall have a minimum clearance of at least fifteen (15) feet above walkways and at least eighteen (18) feet above roadways. Governmental signs, banners, holiday decorations and other non-cable type attachments shall have a minimum clearance of eleven (11) feet above walkways and at least eighteen (18) feet above roadways.
- c. Licensee shall exercise and shall require that its contractors, subcontractors, agents or representatives exercise proper precautions to avoid damage to facilities of Licensor and others supported on the poles, and Licensee shall remain responsible for any and all loss or damage caused by Licensee or its contractors, agents or representatives. Licensee shall make an immediate report to Licensor of the occurrence of any damage and hereby agrees to reimburse Licensor for any reasonable expense incurred in making repairs. Licensee hereby assumes full responsibility for any and all damages to its own plant or

facilities and damages to any appliances or equipment of any subscriber to Licensee's service arising from accidental contact with Licensor's energized conductors.

d. Licensee shall obtain for itself such easements or licenses as may be appropriate for the placement and maintenance of its attachments to Licensor's poles located on public or private property.

e. Licensee shall identify all facilities of Licensee installed on Licensor's poles by tagging, marking, etc. in accordance with the latest requirements of Licensor.

2. Licensee covenants and agrees that nothing herein contained or contemplated is intended to increase Licensor's risk or liability for personal injury or death or for property damage and it is hereby expressly understood and agreed that Licensor does not assume any such additional risk; and Licensee, for itself and its successors and assigns, agrees that it does hereby relieve Licensor of and absolve it from all such risk and liability arising or growing out of the use of, or entry upon, or occupancy of Licensor's poles and facilities as provided herein or breaches of the warranties contained in this Agreement by Licensee, its licensees, agents, employees, or representatives. The obligation of the Licensee to indemnify, defend and hold harmless the Licensor under this Agreement for tort claims is limited to the same extent that the Licensee would otherwise be obligated directly to third persons under existing law or to the extent provided under Chapter 768.28, Florida Statutes, whichever is less. This shall not be construed as waiving any defense or limitation which the Licensee may have against any claim or cause of action by any persons not a party to this Agreement nor shall it be construed as a waiver of the Licensee's sovereign immunity. This limitation shall not be construed to limit Licensee's indemnification of Licensor for actions other than tort claims. However, Licensee's liability to Licensor under this Agreement shall be limited to the extent of coverage under the insurance requirements set forth in this Agreement.
3. If any member of the public, or of the Licensee and its Contractors is injured or killed, or if any property including Licensor's or the public's is damaged in the course of work being performed under the provisions of this Agreement, Licensee shall notify Licensor's Claims Department at (727) 820-4373. Such notification shall be made immediately upon knowledge of such an event, either in person or by telephone and promptly confirmed in writing within 24 hours and shall include all pertinent data including, but not limited to, name of injured party, location of accident, description of accident, nature of injuries, names of witnesses, disposition status of injured or deceased person(s).
4. During the term of this Agreement and for a period of two years subsequent to its termination, Licensee shall maintain and shall require of its contractors, subcontractors, agents or representatives who perform work under this Agreement for the benefit of

Licensee to maintain the following minimum levels of insurance on forms and with insurers acceptable to Licensor:

- (1) Workers Compensation Insurance - Statutory limits.
- (2) Employer's Liability Insurance - \$1,000,000 each occurrence and \$1,000,000 each employee as respects disease claims.
- (3) Commercial General Liability Insurance, including blanket contractual liability - \$5,000,000 combined single limit per occurrence.
- (4) Automobile Liability Insurance - \$5,000,000 combined single limit per accident.

Prior to the commencement of any attachment of facilities or any work hereunder Licensee and its Contractors shall furnish Licensor with certificates of insurance evidencing the required insurance coverage which shall include a provision that such insurance shall not be canceled without thirty (30) days written notice to Licensor. The contractual liability coverage shall insure the performance of all obligations assumed hereunder, including specifically, but without limitation, the indemnity provisions in this Agreement. All policies, except the workers compensation policy, shall name Licensor as an additional insured. All policies of Licensor and its contractors, subcontractors, agents or representatives shall include a waiver of subrogation in favor of Licensor.

5. Beginning with the commencement date of this Agreement, the submittal of an *Exhibit A - Attachment Request* form shall be the exclusive procedure to be used by Licensee in obtaining permits to attach facilities to Licensor's poles. No attachment shall be made by Licensee prior to receipt from Licensor of an approved permit. All Exhibit A forms shall be submitted to:

Duke Energy Florida, LLC.
Joint Use, NP4B
3300 Exchange Place
Lake Mary, FL 32746

6. Licensor shall have the right, but not the obligation, to conduct a pre-attachment field inspection of all proposed attachment locations described in the permit application. Licensor's inspections shall not excuse Licensee's non-compliance with, or inspection obligation under, this Agreement. Licensee shall reimburse Licensor upon written demand for all costs of such inspection. Failure by Licensor to assess or collect such costs at the time of such inspection shall not constitute a waiver of Licensor's right to assess or collect such costs.
7. In the event that any poles of Licensor to which Licensee desires to make attachments are inadequate to support Licensee's facilities in accordance with the aforesaid specifications, Licensor shall so notify Licensee in writing including a detailed

description of the make ready work necessary to provide adequate facilities, together with the estimated cost thereof, to Licensee, and any other specifications with which the attachment must comply as a condition(s) of the permit approval. If Licensee still desires to make the attachments and so advises Licensor in writing, thereby agreeing to reimburse Licensor for the entire cost and expense thereof including, but not limited to, the increased cost of larger poles, cost of removal less any salvage value and the expense of transferring Licensor's facilities, from the old to the new poles, etc., Licensor shall replace such inadequate facilities. Upon completion, Licensor shall notify Licensee granting authorization to attach. Where Licensee's desired attachments can be accommodated on present poles of Licensor by rearranging Licensor's facilities thereon, Licensee shall pay Licensor for the entire cost and expense of completing such rearrangement. Licensee shall also make arrangements with the Owners of other facilities attached to the poles for any expense incurred by them in transferring or rearranging the other facilities. Any additional support of poles, including, but not limited to, guying required to accommodate the attachments of Licensee shall be provided at the expense of Licensee.

8. Licensor shall have the right, but not the obligation, to conduct a post-attachment field inspection of all proposed attachment locations described in the permit application. Licensor's inspections shall not excuse Licensee's non-compliance with, or inspection obligation under, this Agreement. Licensee shall reimburse Licensor upon written demand for all costs of such inspection. Failure by Licensor to assess or collect such costs at the time of such inspection shall not constitute a waiver of Licensor's right to assess or collect such costs.

DANGER! NOTICE TO LICENSEE AND ITS CONTRACTORS

9. *Electricity is a Natural Hazard:* Licensee and its contractors are hereby advised that the generation, transmission and/or distribution of electrical energy involves the handling of a natural force which, when uncontrolled, is inherently hazardous to life and property. Licensee and its contractors are further hereby advised that, due to the nature of the work of attaching its facilities to Licensor's poles hereunder, other hazardous or dangerous conditions (not necessarily related to the inherent danger of electricity) may also be involved in the work. Accordingly, prior to the commencement of the attachment of any Licensee facilities to Licensor's poles, Licensee and its contractors shall inspect the work area on or near Licensor's poles specifically to ascertain the actual and potential existence and extent of any hazardous or dangerous conditions. It shall be the sole and exclusive duty of the Licensee and its contractors to instruct its supervisors and employees, with respect to any such conditions and the safety measures to be taken in connection therewith; and during the course of the work, Licensee and its contractors shall take all such measures as may be deemed necessary or prudent to protect and

safeguard the person and property of their employees and of the general public against all hazardous or dangerous conditions as the same may arise.

10. *Precautions before Commencing Work:* Licensee and its contractors shall, before climbing poles or structures, exercise their best efforts to make certain that the poles or structures are strong enough to safely sustain workmen's weight in the performance of the required work on the poles or structures. Licensee and its contractors shall have the affirmative duty to identify and comply with pole marking or badging procedures undertaken by Licensor (or its contractors) in the ordinary course of business, which procedures may indicate a hazardous pole condition prohibiting any work on such poles. All work designated in any Application and Permit under this Agreement to be performed near energized electrical conductors shall be performed under the conditions and at the place as stated, but only with the specific understanding that if Licensee and its contractors in their sole discretion regard the location where such work is to be performed, or where such work is being performed, as an unsafe place to work, Licensee and its contractors shall immediately cease and desist from performing all work in such hazardous area. Licensee shall then request, in writing, that Licensor make such change or changes as may be necessary or desirable to render the place of performance at the job site a safe place to work for Licensee and its contractors before Licensee and its contractors are permitted to proceed with any work.

11. *Bonding to Electric Company Ground:*

a. Definitions: For this section 11, the following terms when used herein shall have the following meaning:

"Vertical ground wire" shall mean a wire conductor of Licensor attached vertically to the pole and extended from Licensor's multi-grounded neutral (defined below) through Licensee's space to the base of the pole where it may be either butt wrapped on the pole or attached to a grounded electrode.

"Multi-grounded neutral" shall mean Licensor's conductor located in Licensor's space which is bonded to all Licensor's vertical ground wires.

"Bonding Wire" shall mean a number 6 AWG copper wire conductor connecting equipment of Licensee and Licensor to the vertical ground wire.

b. Installation of Bonding Wire: At the time Licensee support wire and communication cable are installed, Licensee shall install a bonding wire on every pole where a vertical ground wire exists, in accordance with NESC. Any piece of Licensee equipment attached to Licensor's pole which does not have a vertical ground wire shall be bonded to Licensee cable support wire and properly grounded.

c. Absolute Grounding Requirement: Under no condition may Licensor's vertical ground wire be broken, cut, disconnected, severed, removed, unbonded or

damaged. If Licensor's vertical ground wire is broken, cut, disconnected, severed, removed, unbonded or damaged, no work shall be allowed on Licensor's poles until Licensor is notified, in writing, and the condition is corrected. Licensee and its contractors shall assure that Licensee's facilities constantly remain properly grounded, either to Licensor's vertical ground wire or through the use of jumper cables or temporary grounds until such permanent ground is affixed.

- d. Additional Bonding Precautions: Licensor reserves the right, but is not obligated to, install, at Licensee's expense, a bonding wire to any piece of Licensee equipment where, in the opinion of Licensor, a safety hazard exists or may exist in the future.
 - e. Licensee's Duty to Warn: It shall be the responsibility of Licensee and its contractors to warn and instruct its personnel working on Licensor's poles of the requirement of bonding its wires to Licensor's vertical ground wire and the dangers associated with ungrounded and unbonded facilities and to furnish adequate protective equipment to protect its personnel from bodily harm during work on its communications facilities. Licensor assumes no responsibility for warning, instructing, for furnishing equipment to, or for the training or job qualifications of Licensee and its contractors or their personnel, including supervisors or employees working on Licensor's poles.
12. It is understood and agreed that either party hereto may, at any time and whether with or without cause, cancel and terminate this Agreement, either in whole or in respect to any particular attachment hereunder, by mailing to the other a written notice thirty (30) days in advance of its intent to do so. Upon such termination Licensee shall within thirty (30) days complete the removal of its facilities from the property of Licensor and for failure to do so, Licensor may, at Licensee's sole expense, immediately remove said facilities of Licensee without any liability for severance, loss, or damages to Licensee or any person or persons whatsoever; and thereafter, both parties shall be relieved of and from all obligations hereunder, in respect to those facilities and attachments so terminated and removed, except such as may have accrued prior to such termination.
 13. Neither this Agreement nor any part or rights thereunder, shall be assigned by Licensee without the written consent of Licensor having first been obtained.
 14. This Agreement, upon its approval and execution by the parties hereto, shall supersede the previous attachment agreement between the parties hereto of the twenty-second day of March. All attachments of Licensee previously approved by Licensor shall be incorporated into this Agreement, subject to the requirements specified herein. It is agreed that all existing attachment agreements, written or oral, between the parties hereto for the purposes set forth herein are, by mutual consent, hereby canceled and terminated.

IN WITNESS WHEREOF, the parties hereto have caused these presents to be executed by their respective representative thereunto duly authorized.
